TECHNICAL SKILLS

Programming: JavaScript/Typescript, HTML/CSS, Node.js, React.js, Tailwind CSS.

Developer Tools: VS Code, Firebase, Git, Github, Bootstrap, Tailwind CSS, MongoDB, Browser DevTool.

EXPERIENCE

Platforms / Company: Forkhive Tech, Thrivr

Dates: Feb 2023 – Nov 2024

- Designed and developed responsive web interfaces for international clients using React.js, Tailwind CSS, and JavaScript, achieving a 25% reduction in page load times.
- Integrated modern CSS frameworks and animations to improve interactivity, resulting in a 20% increase in user satisfaction based on client feedback.
- Improved website loading times by 30% through efficient code optimization, image compression, and leveraging best practices in front-end development.
- Adapted quickly to the fast-paced startup environment, consistently meeting project milestones and delivering highquality code. Optimized frontend performance to improve user engagement metrics, including an average increase of 30% in session duration.
- Spearheaded the redesign of Thrivr's landing page, implementing a modern, responsive design that increased user engagement by 40%.
- Worked closely with back-end developers and designers to ensure seamless integration of APIs and alignment with the overall product vision.
- Collaborated with international clients, gathering requirements and delivering projects on time with high satisfaction rates.
- Focused on responsive design principles and cross-browser compatibility, ensuring consistent performance across devices.
- Delivered high-quality code with attention to detail, leveraging Git for version control and maintaining effective communication with clients.

PROJECTS

Nex Media

- Developed a blog application allowing users to post blog posts, create accounts, allowing authentication, reading articles

CareerBoost AI

- The CareerBoost AI App is an intelligent platform designed to optimize resumes and enhance job application success rate

CitiSafe

- Developed a Crime Web App as a location-specific platform designed to provide users with real-time insights into crime rates for various cities and countries.

EDUCATION

Caleb University | Bachelor Of Computer Science (Second Class Upper)

2021
